

# Energy meters

**Dual function counters**      **Energy and time (AC)**      **HW66M**

The HW66M combination meter consists of an hour meter and an energy meter.

This panel-mounted device requires only a limited installation depth and can be used in a wide variety of application areas. The count pulses can be read out via the SO output.

### Product features

- Metering of hours run and energy consumption in one compact device – panel mounting.
- Wide temperature range.
- Remote readout via SO outputs on request.
- Shows both values in parallel.
- Easy-to-read display – can also be read if no voltage present.

### Benefits

- Tamper-proof fixed installation with high degree of protection.
- High measuring accuracy.
- Can be officially calibrated (MID).

### Applications

Dehumidifiers, hire equipment and machinery, air-conditioning, production equipment, current generators.
