LED pulse counters	Adding (AC+DC)	Codix 540
---------------------------	-----------------------	------------------

The Codix 540 is a simple voltage powered pulse counter for fast and slow count pulses, with 6-digit LED display for NPN, PNP input signals.

DC 10 ... 30 V	AC 100 ... 240 V	000000 DIN 96x48	-20°...+65°C Temperature range	IP65 High protection level	Plug-in screw terminal	Menu-driven programming	Operation with gloves	max. 60 kHz Pulse counter/ Totalizer	PNP/NPN Input type
--------------------------	----------------------------	----------------------------	------------------------------------------	--------------------------------------	-------------------------------	--------------------------------	------------------------------	------------------------------------------------	------------------------------

Powerful

- Fast count input – input frequency max. 60 kHz
- Robust housing – IP65 protected
- Very bright LED display, 14 mm high
- Simple totalizing and quantity counter
 - single channel count input and reset input
 - programmable for positive (PNP) or OV (NPN) switching input pulses
 - fast count input with an input frequency of max. 60 kHz, can be damped to 30 Hz for mechanical contacts
- Short start-up time – detects input pulses just 16 msec after being switched on => no pulses are lost with a simultaneous motor start-up

User-friendly and universal

- Large keys – can also be operated when wearing gloves
- Simple uniform menu-driven programming and operation – possible to enter the programming also during operation with a confirmation prompt
- Programmable decimal point, can be set from 0.0 to 0.000
- Manual or electrical reset – tamper-proof due to lockable reset function
- AC or DC supply voltage with sensor supply voltage
- As an alternative to the HTL inputs, devices are available with a 4 ... 30 V DC input level, for use as parallel displays to PLCs
